EDUCATION

Texas A&M University

*College of Engineering, Mays Business School
Bachelor of Science in Industrial & Systems Engineering
Master of Science in Finance*

College Station, Texas

*May 2026
Cumulative GPA: 3.57/4.00
Cumulative GPA: In Progress*

PROFESSIONAL EXPERIENCE

Texas Instruments

*Incoming Procurement Specialist
Wafer Fab Direct Materials Procurement Intern*

Dallas, Texas

*May 2026
May 2025 – August 2025*

- Led initiative for a new parts list with updated part numbers, alternatives, technology mapping, country-of-origin data, and more; independently coordinated with 16 internal teams and eight suppliers around the world to collect relevant information
- Learned how to use Spotfire data visualization software to create a revisualized minimum cycle time analysis dashboard
- Created an automated total cost of ownership calculator in Excel with VBA for freight, fuel, tariff, & other costs; parts are comparable with coded dropdown boxes that automatically update to estimate future costs based on historical trends

Worldwide Procurement & Logistics Intern

May 2024 – August 2024

- Produced a macro-enabled Excel database using VBA that allows dynamic, refreshable, and customizable data analysis of the on-site chemical warehouse; consolidated UOM data into a standardized source for current & optimal future state analysis
- Collaborated with the Worldwide Procurement & Logistics team to perform risk assessments for 20% versus 40% production ramps; determined financial ramifications of production increases through warehouse forecasts & fabrication facilities storage
- Created an Excel workbook to cross-reference 6,000-part numbers stored online versus 57,100 offline order receipts; determined & created revised pathways to improve accuracy by 40.7% in as many as five essential part description categories

LEADERSHIP & INVOLVEMENT

Corporate Guild

Guild Leader

College Station, Texas

August 2025 – Present

- Guide sophomore-start MS Finance students on application, networking, & interview processes for corporate internships
- Co-lead informative presentations on a variety of corporate topics and mentor students throughout the academic year

STEM to Stocks Guild

President

College Station, Texas

May 2024 – May 2025

- Elected by MSF students to conduct seminars for 100 engineering undergrads on the subjects of finance and career readiness
- Deliberate with MSF Program staff and student leadership in monthly meetings about the progress of students in the guild

Breakaway Volunteer

Connect Team Volunteer

College Station, Texas

January 2023 – Present

- Serve 2,000-3,500 students every week at a Bible Study in Reed Arena cumulating in 100-150 volunteer hours per year by providing resources for visiting students to find and join a local church in the Bryan-College Station area
- Work with visiting students seeking churches of certain denominations by talking through lists of churches in the area and discussing beliefs and structures of those churches for the purpose of encouraging participation

Aggie Recruitment Committee

Discussion Group Leader

College Station, Texas

September 2021 – Present

- Organize two semi-annual student-run 3-day events for high school juniors and seniors interested in attending Texas A&M by designing props, painting 10-foot banners, planning daily activities, and assembling informational pamphlets and documents
- Coordinate schedules and lead a group of 10-12 high school students to experience the university through traditions-based events and campus tours; discuss college decisions and answer participants' questions surrounding academic major selection
